Lecture 2 - Notes

Veronika Palotai

2019 09 23

Group Assignment

Track how learning is going in class (goal 1)

- deal with issues others had (go deeper into it), take over some of the learning from the others, goal 2
- get some data from classmates (like how many languages u know) goal 3

first team presents in 2 weeks!!!

team: me, Gyula, Agnes, Eszter

Peer review: did they do it? did they document if they got stuck? -> review 3 hws

Important Snippets

```
getwd() # gets your default working directory
setwd("~/Git/blabla/lecture2")
read_csv("my_file.csv")
read.csv2() # for European data which is mostly semi-colon delimited
sample() # samples columns randomly but not for all data structures
sample_n(student_first_names, 4) #if u have one column ??
```
